

AR CARGO

OUR VISION

To be the preferred global logistics partner, renowned for seamless integration, technological excellence, and uncompromising reliability.

OUR MISSION

We deliver integrated, cost-effective, and customized logistics solutions through a global network, expert industry knowledge, and a commitment to operational excellence, ensuring our clients' supply chains are efficient, transparent, and resilient.

CORPORATE OVERVIEW

AR CARGO stands as a premier, fully licensed integrated logistics provider headquartered in Pakistan. Our comprehensive suite of services encompasses global freight forwarding, shipping agency, cargo consolidation, bonded overland transportation, and sophisticated supply chain management solutions. With decades of sustained industry leadership, we have cultivated a robust worldwide network of trusted agents and partners, enabling us to orchestrate seamless logistics across every continent.

Our strength lies in the synergistic combination of our veteran industry expertise, a highly competent professional workforce, and a forward-thinking technological infrastructure. This triad allows us to deliver exceptional service quality while maintaining highly competitive operational costs, providing a distinct value proposition in the global marketplace. We are more than a service provider; we are strategic partners in our clients' success.

OUR INFRASTRUCTURE

Karachi Headquarters: *Our corporate head office is strategically situated in the south business district of Karachi, ensuring proximity to key commercial entities and facilitating swift decision-making and client interaction. This location provides immediate access to the country's primary seaports and airports.*

National Presence: *To serve the dynamic economic landscape of Pakistan, we maintain fully operational branch offices in Lahore, Sialkot, Islamabad and Peshawar. These inland offices are empowered to provide localized, responsive service and ensure end-to-end operational control for clients across the nation, from origin to final destination.*

Port-Proximate Facilities: Our container depot and bonded warehouses are located within a critically advantageous distance from the Port of Karachi. This strategic positioning guarantees 24/7 access, reduces transit times, minimizes drayage costs, and provides a secure, efficient hub for container handling, cargo storage, and distribution.

OUR SERVICES

- **OCEAN FREIGHT MANAGEMENT**

We offer expert end-to-end management of both Full Container Load (FCL) and Less than Container Load (LCL) shipments. Our deep expertise in containerized movement, combined with our global agency network, ensures reliable scheduling, optimal routing, and absolute protection against shut-outs. We provide customized door-to-door solutions, prioritizing cargo safety, cost efficiency, and meticulous documentation handling.

- **INLAND & BONDED TRUCKING**

Our fleet of bonded carriers provides a critical competitive advantage, offering secure, uninterrupted overland transportation under bond from port to any destination inland. This service eliminates customs clearance delays at intermediate points, ensures cargo safety, and provides a seamless, efficient link in the supply chain as part of a holistic logistics package.

- **CUSTOMS CLEARANCE & REGULATORY COMPLIANCE**

As licensed Customs House Agents, our team of specialists navigates the complexities of Pakistani and international trade regulations. We are committed to achieving swift clearance, aiming for zero detention and demurrage charges for our clients. Our proactive approach resolves regulatory challenges for both import and export consignments, serving a prestigious portfolio of multinational corporations.

- **WAREHOUSING, DISTRIBUTION & INVENTORY CONTROL**

Our secure, strategically located warehouses offer cost-effective storage solutions with extended free-time allowances. We specialize in handling a diverse range of commodities, providing services for temporary storage, long-term care, order picking, and scheduled distribution. Complementing this, our advanced IT systems provide real-time inventory visibility, stock-level management, and detailed tracking reports, keeping clients fully informed and in control.

- **CONTAINER DEPOT MANAGEMENT**

Our modern, three-acre depot facility is a cornerstone of our service excellence. Capable of stacking approximately 1500 TEUs, it features:

- *Cost-Effective CY Alternative:* Serves as an efficient and economical container yard for empty pick-ups and drop-offs.
- *Advanced Depot Management System:* Proprietary software tracks container inventory, condition, and repair status, drastically reducing turnaround times.
- *Professional Repair & Survey Services:* Our skilled team, proficient in CODECO, EDI, and ISO standards, performs precise repairs based on detailed estimates and conducts rigorous post-repair inspections to ensure compliance with all liner criteria within strict timelines.

OUR TECHNOLOGY

Our dedicated IT department is the central nervous system of our operations. We leverage customized digital solutions for seamless communication, electronic documentation, shipment tracking, and inventory management. This technological edge enhances accuracy, provides real-time transparency to our clients, and drives continuous improvement in our service delivery.

OUR COMMITMENT

AR CARGO is dedicated to providing "Total Logistics Solutions". We build partnerships based on reliability, innovation, and a relentless focus on our clients' objectives. Our integrated approach, combining physical assets with expert human capital and technology, ensures that every shipment receives the meticulous attention required for success in today's fast-paced global economy.

"We look forward to the opportunity of partnering with you and elevating your supply chain"
